

Quality, Compliance, Performance Assured

Sustainable surface water
drainage solutions

Combined Kerb Drainage Systems are a universally recognised and efficient method of draining surfaces.

TORkerb is manufactured in accordance with EU

Harmonised & UK Designated Standards

(EN1433-Load Category Group 4-D400).

TORkerb 305 Half Batter Standard Unit

The recycled & recyclable lightweight standard units are manufactured from a hydraulically efficient material and have a large useable volume. This means large areas can be drained quickly and safely, protecting surfaces by taking run-off at multiple points across the whole length of the kerb-line.

TORkerb Half Batter

TORkerb 45 deg. Splay

TORkerb 305 Splay Standard Unit

The recycled & recyclable lightweight standard units are manufactured from a hydraulically efficient material and have a large useable volume. This means large areas can be drained quickly and safely, protecting surfaces by taking run-off at multiple points across the whole length of the kerb-line.
